Maybe even better than free.

There are no restrictions on the number of times a file can be downloaded. You can give this download link to your friends by mail or instant messenger. We have no file size limit. So try our free and simple filehosting service now. It is also allowed to link to the download page from websites and communities. Thisis easy, fast and reliable filehosting! You don't need any kind of premium-accounts. You decide who you want to share your files with. Keep your files private,or send your download links only to friends or family. Just upload the file you want to share with your friends and we send you a download link to your file. Simply upload your file and share the link. You don't need any special software installed to be able to download your files. No account or credit card is required to get started. Using file, you can circumvent those limits without paying to upgrade your team chat service. Files transferred the old-fashioned way tend to pile up and be forgotten about, eventually costing you money in data storage fees. The cost of that data transfer is covered by your internet service or the data planon your phone. If only we could, we surely would! On the other hand, using file can actually save you money. Why pay storage fees for a file that you justwanted to send to a friend or colleague? Also, many team chat apps have limits to the size of files that can be transferred within their apps. Any file in anyformat can be uploaded and downloaded for free. You can upload any type of file (movies, music, documents, images, zip files and more). Files can bedownloaded from any computer from our high speed servers. When you use file, you avoid storing the file you're sending in your cloud storage or mail server.Our service is completely free for everyone. Alternatively you can choose to share your download links on blogs, forums and social networking sites. File isfree to use with no gotchas and no hidden fees. Your wallet will be none-the-lighter! Just so we're all 100% clear here: When you share a file, data is beingtransferred between your computer or phone and our servers, then from our servers to your friends device. filehosting provides an easy possibility for you tosend large files to your friends. Unfortunately, we can't make that part free.
