Just upload the file you want to share with your friends and we send you a download link to your file. It is also allowed to link to the download page from websites and communities. Our service is completely free for everyone. Simply upload your file and share the link. filehosting provides an easy possibility for you to send large files to your friends. If only we could, we surely would! On the other hand, using file can actually save you money. There are no restrictionson the number of times a file can be downloaded. Your wallet will be none-the-lighter! Just so we're all 100% clear here: When you share a file, data is being transferred between your computer or phone and our servers, then from our servers to your friends device. When you use file, you avoid storing the file you're sending in your cloud storage or mail server. You can upload any type of file (movies, music, documents, images, zip files and more). So try our free andsimple filehosting service now. Why pay storage fees for a file that you just wanted to send to a friend or colleague? Also, many team chat apps have limits tothe size of files that can be transferred within their apps. No account or credit card is required to get started. Using file, you can circumvent those limits withoutpaying to upgrade your team chat service. You can give this download link to your friends by mail or instant messenger. Keep your files private, or send yourdownload links only to friends or family. Files can be downloaded from any computer from our high speed servers. You decide who you want to share yourdownload links on blogs, forums and social networking sites. Any file in any format can beuploaded and downloaded for free. File is free to use with no gotchas and no hidden fees. Files transferred the old-fashioned way tend to pile up and beforgotten about, eventually costing you money in data storage fees. This is easy, fast and reliable filehosting! You don't need any kind of premium-accounts. You don't need any special software installed to be able to downloa
