Dell Inspiron 1545 Manual Recovery

People are telling to press F8 when I turn on my computer and go under repair and such but every time I do that it says I need the disk so I have no idea how I can do this. Any ideas would be great thanks. Once again its a Dell Inspiron 1545. Please follow the steps in the link below to perform PC restore. The Rescue Disk Bootable External Hard Drive may not be able to boot with this system. See here I want to format the partition and bring things back to factory state. I followed your instructions Used F8 to get Advanced Boot Options. Chose Repair Your Computer. Waited for files to load. Selected the keyboard. Clicked Next. Logged in as Administrator. But there was no option, or way to get to an option, to reformat the drive and restore to factory defaults. The best I can do is perform a Windows 7 system restore to a prior restore point, which is not good enough. And I presume I can restore to factory state from there but I cant seem to get to it. But there is no such image available. When I get the system clean again I want to make such an image but I cant find how to do that. Thanks in advance Thanks again. Thanks again..
